

Stripping tool for Raychem self-regulating cables

PRODUCT OVERVIEW

The Raychem Stripping-Tool-SR-Cable is designed for use with Raychem BTV-CR, BTV-CT, QTVR-CT, XTVR-CT, HTV-CT, HWAT, XL-Trace, IceStop and RaySol self-regulating heat-tracing cables. The tool is designed for faster, safer and more reliable cable terminations.

The tool has two sets of blades designed for precise scoring of the outer and inner jackets of the cables mentioned above. The scoring blades are protected by a spring-loaded cap that rotates automatically. For safety, the cap rotates back to its original position automatically after the cutting operation is performed.

The tool also includes a unique core scoring feature that prevents damage to the conductors. The tool has a robust metallic body, ergonomic contour and replaceable blades.

PRODUCT SPECIFICATIONS

Technical details

Body	Symmetric and Ergonomic Aluminum A380 Metallic Body with TPE soft sleeve.
Jacket scoring blades	A pair of jacket scoring stainless steel blades with depth ranges of 0.04–0.06 inch (1–1.5 mm) and 0.01–0.03 inch (0.25–0.75 mm).
Blade cover	Spring loaded Zinc alloy cap that covers both the blades when the tool is not in use.
Core scoring feature	Core scoring blade which will prevent damage to the conductors. The blade height should be 0.01–0.04 inch (0.25–1 mm).
Replaceable blades	All blades can be replaced with a screwdriver. Replaceable blades are provided with the tool.
Coating	Metallic body coated with electrostatic epoxy powder 0.002–0.005 inch (0.05–0.1 mm) thick.
